

Alejandra Urueña

Technical UX/UI Designer

alejaurluena.github.io/portfolio | uruenale@gmail.com | linkedin.com/in/aleja-uruenale | Bogotá, Colombia

Technical UX/UI Designer for digital product and games, formally trained in interaction design. Skilled in navigating Unity, Unreal Engine, and HTML/CSS to implement my interface designs. I deliver precise, evidence-driven UX documentation, prototyping & design systems. With a background in QA, I've sharpened my design thinking workflow to always prioritize user psychology, usability and storytelling.

SKILLS & TOOLS

DESIGN — UI and design systems · Wireframing and prototyping · UX flows and information architecture · Game UI and HUD design · Responsive web design

RESEARCH & QUALITY — Usability testing · UX heuristic inspection · Feature and regression testing · Agile

TOOLS — Figma · Unity · Unreal Engine · HTML/CSS · Adobe (Photoshop, Illustrator, Premiere Pro) · Jira/Trello

EXPERIENCE

QA Analyst / Support Designer — Dreams Uncorporated

Jan 2026 – Present

DESIGN

- Designed UX flows, prototypes and game mechanics for the level editor of **GreenCode: Play & Learn**, a published cross-platform title.
- Delivered UX and UI — wireframes through final mockups — for a second title under NDA.
- Contributed interface and interaction design across additional projects in production.

QUALITY

- Evaluated UX, UI, features, performance and bugs across 7+ multi-genre projects on console, PC, web and mobile, documenting user friction with reproducible evidence and test cases.

Junior QA Analyst — Dreams Uncorporated

Aug 2025 – Dec 2025

Took on interface and UX design tasks alongside quality work, leading to promotion to Support Designer.

QA & Design Intern — Dreams Uncorporated

Feb 2025 – Aug 2025

Freelance UI Designer / Web Implementation — games and digital media

Project-based, 2023 – 2025

- Designed concept art and UI for an independent game project with a remote team.
- Built and later updated a pixel-accurate responsive site in Wix Studio from a third-party design specification.

Recent Game Jams — UI design, UI implementation and writing

Oct 2023 – Jan 2026

Global Game Jam Globant 2026 · Global Game Jam Globant 2025 · Women Game Jam 2024

SELECTED WORK

GreenCode: Play & Learn — *UX & Game Design*

Level editor for a cross-platform app that teaches computational thinking through block-based programming. UX flows, prototyping and mechanic redesign with client and production.

Universo Maloka — *UI Art & Prototyping*

Gamified map app for an interactive science and technology museum. UI art, prototypes and part of the design system, to help families find exhibits faster.

Kungatá — *Game Design & Implementation*

Action-based roguelike. Designed game mechanics and implemented menus, dynamic UI, enemy AI, dialogue systems and object interaction in Unity.

Necronomicón — *UX & UI Design*

Lovecraftian-inspired app keeping character sheets and game stats shareable and in one place. UI designed and prototyped around pain points in the tabletop RPG player journey.

ACHIEVEMENTS

Game Developers Conference 2024 Scholarship — awarded by COVA and LATAM VGF with TGyJ Colombia. Attended development workshops and industry talks in San Francisco, US.

Women in Games Ambassador 2024 — international advocacy for diversity in video games, eSports and creative industries.

EDUCATION

Interaction Design Degree — Jorge Tadeo Lozano University, Bogotá, Colombia 2021 - 2025

Emphasis on video game development
